About This Content

Aloha! The fresh, floral air energizes you. The warm, tranquil waters refresh you. The breathtaking, natural beauty renews you. As the sun sets, you look around, you're on an exotic island, wearing a straw skirt and flowers in your hair. This can be your life if you upgrade now to Hawaii Coco!

This DLC contains a custom skin for Coco Nebulon in Awesomenauts. You need to have Coco Nebulon available as a playable character in order to access the skin in-game. Owning this skin will also unlock the special portrait for use in-game.

Graphics: AMD or NVIDIA videocard with at least 512MB, or Intel HD Graphics

Hard Drive: 3.5 GB HD space

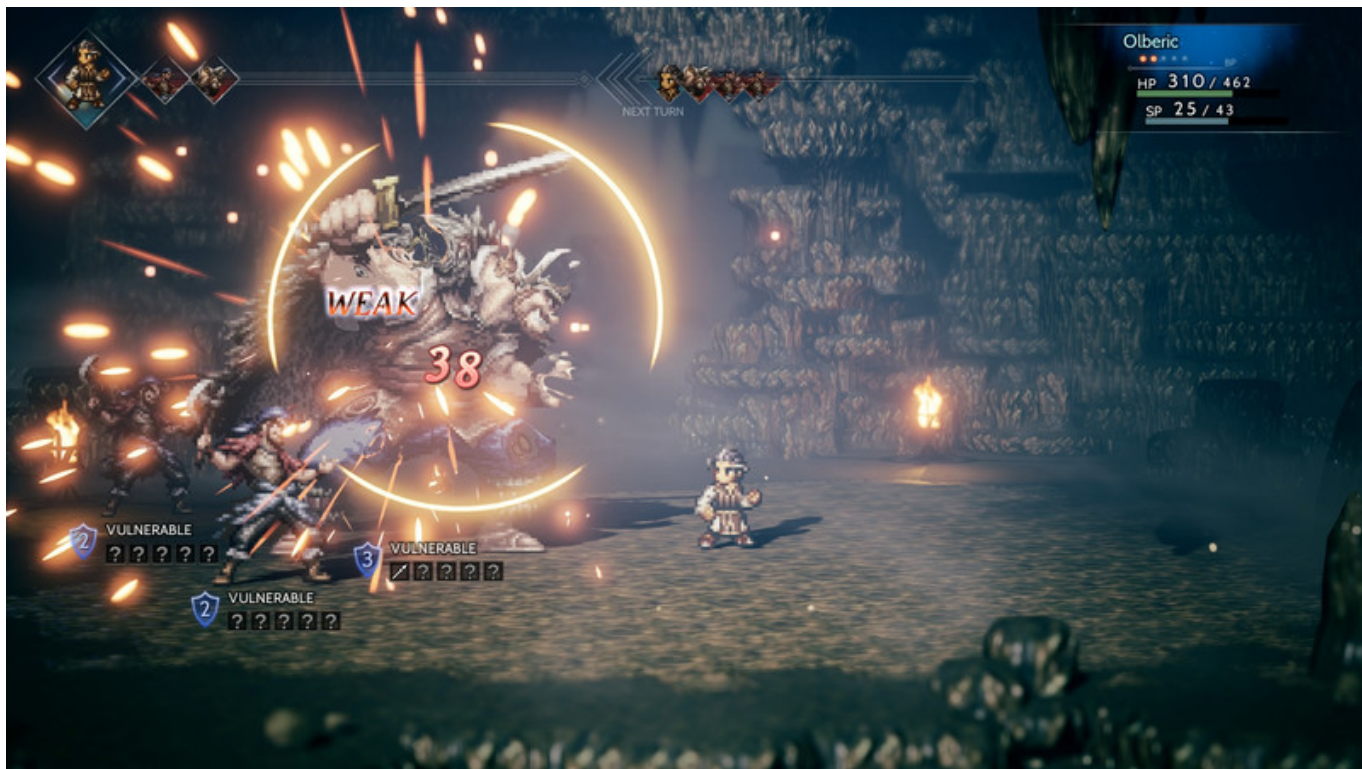

Other Requirements: Broadband Internet connection

English, German, French, Italian, Dutch, Russian, Simplified Chinese

在这里，她就算什么都不做，存在感都强烈到可怕，遑论呼吸，连灵魂都要被她所吞噬。

When nothing sort of advanced trick even works, just remember about the basic stuff.

And just do your best, earnestly.

That was a really great principle to live by given from World End Economica, a straight train but filled with great stuff you won't regret!. ENG:

If you like playing around, like adventure, excitement and challenge you, and you're a nerd and you like coding, you like to try out the hacks, by far the best hacker simulation, where you can legally hack! Testimonial!

Also includes a mod editor!

FIN:

Jos pid\u00e4t leikkimisest\u00e4, pid\u00e4t seikkailusta, pid\u00e4t j\u00e4nnityksest\u00e4 ja haasteesta sek\u00e4 olet n\u00e4rtti sek\u00e4 pid\u00e4t koodaamisesta, tykk\u00e4t kokeilla my\u00f6s hakkerointia, ehdottomasti paras hakkeri simulaatio, jossa voi laillisesti hakkeroida! Suositeluni!

Sis\u00e4lt\u00e4 my\u00f6s modi editorin!. Quell Zen is the fourth and latest part of the Quell Puzzle Games. While the other 3 Quell games (Quell, Quell Reflect and Quell Memento) have nearly the same puzzle mechanic in the whole game, with improving difficulty the more you progress, Quell Zen is bit different.

This game has 4 Stages with 4 unique levels and sometimes a secret hidden level. Every of those stage has a unique puzzle mechanic and in total 13 different chapters.

Your goal is to collect with your blue water bubble all the pearls in the level. You earn for every perfect level and for the hidden gems coins. With these coins you can buy solutions for the perfect set of moves for the level or the location of the secret level entries or hidden gems. (this has nothing to do with microtransactions!)

After finishing first the other 3 games and while playing the fourth, I am writing this review to absolutely recommend this series of puzzle games to you.. Visually pleasing physics puzzler. Most of the stages were a breeze, though the last few stages did have a couple good tricks. great time killer but look elsewhere if you're after something really intense and frustrating.. Everybody that likes movies should try this experience. It gives you a taste of what will be possible in VR movies in the future. For example, it never felt so real to sneak around a corner together with somebody else and almost look over his shoulder...

A blaxploitation-movie styled runner game. Mechanics are okay (so-far nothing super punishing, but I've only been through the first world). It also has some QTE-styled boss fights, which at least look kinda cool/silly, though are very simple (and the mini-boss fight is literally the same level every time, and that's not good).

It's basically just a game to play a level or two at a time, basically just like a mobile game.

I rate it Okay out of a possible 100, I wouldn't pay full price for it, but not the worst game to be in a bundle (unless you find blaxploitation movies offensive, in which, you won't like this game at all, just watch the trailer.). Basically a Point and click game. Has a nice moody atmosphere, graphics and sound are nice enough, nothing amazing. I managed to finish the game once in about 45 minutes but there are multiple ways to end the game, so I'll be revisiting it for at least one more run. Puzzles aren't terribly taxing but require attentiveness. Overall just a nice little experience.. Saying the locomotion is broken is an understatement. Once in a while It moves in a general direction without me doing anything. When you do want to move and use the trackpad, it can't figure out where "forward" is. Is always shifted to the right or left. There is also a gap between the virtual floor and the real one. I thought it was a calibration thing but its only happening in this game.. ran very slow : unable to access the DLC's

dissappointed...too much like other games of its type ...graphics were impressive. One of the best game last days.
Cool to play with friends all day long!
